Claim Rejections - 35 USC § 112

1. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, for example, the recitation "wherein a width of the input output cells is approximately equal to or less than a width of the bonding pads;" is not clear. Do the Applicant mean a width of each input output cells ...less than a width of each of the bond pads? Similar to claim 1 is claim 17.

In claim 14, the recitation "input output sub-regions ...,wherein a first portion of each of the input output sub-regions comprises input output cells, and wherein a second portion of each of the input output sub-regions comprises logic" is not clear. Where are the exact location of a first portion with respect to a second portion?

2. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
